

ARIES

(MARCH 21 – APRIL 19)

Traits and Characteristics

Aries natives are extremely fickle-minded, excited, and take long strides. Their body is well built, and the head is large, usually having thick, dry hair. Many Aries natives have straight noses and lips that come forward, which gives them an appearance of sheep. In cases of health, Aries natives are fortunate, but they have a habit of doing more work than their capacity, which makes them tired. And so they need discipline. They should develop the habit of trusting others so that the work may get distributed.

Aries natives have good resistance power, but they should protect themselves from small injuries and serious accidents. The maximum danger is for their head and face, because this is influenced by zodiac sign Aries. From Aries, the sixth house is Virgo, which is related with the digestive system.

So, Aries natives may suffer from headaches, burns, disease, epilepsy, pimples, insomnia, ringworm, pain affecting half the head, small pox, malaria, etc. They should get maximum rest and eat green and leafy vegetables more. They should avoid intoxicants and reduce the quantity of meat in their food.

Children of the zodiac sign show fighting tendency from the beginning. He/she will be without self-control, original, and sports loving. In schools, they will participate in all activities and due to this, become popular very quickly and never be alone. The Aries' children's health will be fine, but they should protect themselves from head injuries.
