

# Life-Changing Skills For a Better Future

Operating under the premise that every global citizen should have access to an experiential learning environment, Phoenix Voyage (PV) promotes individualized support in the form of writing, multimedia, health, business, sports, arts, organic farming programs & more!

The Phoenix Center project strives to bring life-changing skills for a better future to communities around the world. The sponsor packages can be scaled up to accommodate larger communities and all domes are complete with foundations and energy.

## **Phoenix Center Basic Package Sponsorship** **Base Cost: 500,000 Euros**
